Monroe, OH 45050

## WHAT THIS CLASS COVERS

Learn about the Aire Technologies' line of certified HVAC Fire Dampers and Certified Ceiling Radiation Dampers (CRDs).

Aire Technologies HVAC fire dampers are engineered and tested to prevent the spread of fire inside the ductwork through fire-resistance-rated walls.

Aire Technologies' Ceiling Radiation Dampers (CRDs) are engineered and tested to prevent heat from radiating into the truss or joist space in a floor-ceiling or roof-ceiling assembly.

*\* Lunch will be provided at the  
Florence and Monroe sessions*

**CORKEN**  
**STEEL PRODUCTS**
