HOME COMFORT **expo**
Presented at GeoFarm™ 2026

Corken Steel Products cordially
invites you to attend the
HOME COMFORT EXPO
Presented at GeoFarm™

This is our 17th year since the inception of GeoFarm, now known as the Home Comfort Expo Presented at Geofarm. We changed the format so that we can continue to provide a variety of topics that are imbedded in our profession. We are very proud of the fact that over 3,000 contractors have attended the various training events at Geofarm. Many of you come to the event year after year which we feel is a testament to the quality of training we provide.

This event takes place on a beautiful 300-acre farm located in Aurora, Indiana. This location provides us with the perfect setting to offer a variety of training sessions outside of the normal classroom environment.

We have an outstanding team of trainers to help make this an enjoyable and educational event for all who attend. We look forward to spending time with each of you.

In the event of unpredictable weather conditions, Friday, September 4th has been scheduled as a rainout date. The same agenda will apply.
