

[CORKEN TRAINING] COMBUSTION ANALYSIS: THE RIGHT WAY!

ABOUT THIS CLASS

Join us for a hands-on combustion training with opportunities to use a Fieldpiece CAT85 combustion analyzer, as well as the reporting, and printing options from the app.

One of the most important tasks in maximizing efficiency and safety in heating appliances is to perform an accurate combustion analysis test.

WHAT YOU'LL LEARN

- What combustion analyzers do
- How to effectively use them on several types of heating appliances
- How to measure oxygen, carbon dioxide, carbon monoxide and draft pressure
- How to improve efficiency, performance, and reliability of the heating system

TUESDAY
OCTOBER 21
3:00 PM – 5:00 PM
EVANSVILLE
770 E. Division Street
Evansville, IN 47711

WEDNESDAY
OCTOBER 22
9:00 AM – 11:00 AM
LEXINGTON
2497 Palumbo Drive
Lexington, KY 40509

WEDNESDAY
OCTOBER 22
3:00 PM – 5:00 PM
LOUISVILLE SOUTH
3331 Gilmore Industrial Blvd.
Louisville, KY 40213

THURSDAY
OCTOBER 23
9:00 AM – 11:00 AM
FLORENCE
7910 Kentucky Dr.
Florence, KY 41042

THURSDAY
OCTOBER 23
3:00 PM – 5:00 PM
MONROE
341 Breaden Drive
Monroe, OH 45050
